

## INTRODUCTION

Tedelfi is the only British manufacturer to compete directly with the *Medium Pressure* valves and fittings from the USA

Tedelfi's standard range is constructed from cold drawn 316 L stainless steel. Other materials such as 17-4PH, Hastelloy, Inconel, Titanium and NACE approved materials are also available.

Tedelfi's policy of continuous improvement ensures the provision of high quality products with excellent customer service at competitive prices.

In accordance with Tedelfi's "Green" policy all materials are sourced locally. Supporting the local economy is very important to the Company.
